ABSTRACT (12-Font Size, bold, all caps, centered) – The content of the Abstract should be written in 200 words and with 11-font size, Times New Roman, justified, single line spacing. Objectives, methods and findings are summarized in this section.

Keywords: Keywords regarding the work are stated in this section. The section should contain maximum 5 words/concepts that are written with 10-font size and separated with semi-colon (e.g.: false memory; facial expression; emotion; priming; attention)

1. INTRODUCTION (Title Times New Roman, 12-font size, bold, single line spacing, left aligned)

Extended abstracts should be written according to underlying structure of the structured abstract and in a form that is shorter than the full text. Subtitles of the extended abstract should be composed from the sections of abstract and keywords, introduction and objective, method, findings and argument, conclusion and suggestions. Extended abstract of the full paper shall be written with Times New Roman font, single line spacing and 12-font size. Extended abstracts can contain figures, tables, formulations or images. Extended abstracts should be in a structure that explains the content of the declaration therefore the preparation phase of the said work. Page margins are formed regarding the *A4 page size and are 2.5 cm wide from the right, left, top and bottom*. End of the lines should be aligned to the right and there should be no syllable segmentation. Extended abstracts should not exceed 800 words (NOT including abstract and references) and pages should not be numbered. Current literature regarding the work subject should be examined and the differences of the said work from the past, similar works should be presented clearly in the introduction section.

2. MATERIALS AND METHODS

All materials and methods that have been used in the work must be stated clearly and subtitles should be used when necessary. First-degree titles (2.) should be written left aligned, all caps and bold.

2.1. Subtitle

Second and 3rd degree subtitles (2.1, 2.1.1) should be written left aligned, bold and with title case. A blank line should be placed between the paragraphs and there should not be any paragraph indentation.

3. RESULTS AND DISCUSSION

3.1. Subtitle

All of the tables, images and figures should be centered. Figures and images should be numbered (e.g., Figure 1) and figure definitions should be placed under the figure or image; as for the tables, they should also be numbered (e.g., Table 1) and the table header should be placed at the top of the chart. Table, image and figure headers should be written with upper case initial letters, bold and should be centered. *References (if any) of the tables, figures and images should be presented just under the tables, figures and images in the form of author surname and publication date.*
